PROJECT EXPERIENCES

PERSONAL PORTFOLIO	Feb 2024-Mar 2024
---------------------------	--------------------------

- I designed my personal portfolio to have a central hub where I can showcase my work, skills, and passion for web development and it's a place to express who I am professionally.
- It has a clean and minimalist design . The layout is intuitive, guiding visitors through my projects seamlessly.
- To build this portfolio, I harnessed the power of HTML, CSS and JavaScript. HTML for structuring content, CSS for styling and JavaScript for interactivity.
- Each line of code represents my learning journey.
- Clients and visitors have given positive feedback, Knowing that my portfolio resonates with them motivates me to keep improving and adding new features.

SOCIO-PRIVACY EVEN WHILE SOCIAL

Feb 2024-Present

- This is a decentralized social media platform built on the ICP(Internet Computer Protocol) blockchain.
- Creating a decentralized social media platform that prioritizes user privacy, secure authentication and anti-cyberbullying measures while addressing centralization, data misuse and content theft.
- Tackles centralization with robust scalability, empowers users by prioritizing control and data ownership.
- As a frontend developer, my responsibilities included designing and implementing interactive user interfaces using HTML, CSS and JavaScript to enhance the user experience on SOCIO!
- Proficiently utilized React.js to build responsive and user-friendly interfaces, ensuring seamless interactions on this platform.
